

Governing Environmental Flows: Global Challenges to Social Theory

By Gert Spaargaren, Arthur P. J. Mol, Frederick H. Buttel

MIT Press Ltd. Hardback. Book Condition: new. BRAND NEW, Governing Environmental Flows: Global Challenges to Social Theory, Gert Spaargaren, Arthur P. J. Mol, Frederick H. Buttel, Globalization and the changing role of the nation-state call for new approaches to environmental governance and new ways to conceptualize it. Recent developments in sociology--seen in the work of John Urry, Manuel Castells, and others--show how social theory can be made less static, more fluid, and more directed toward flow and networks in order to encompass today's reality. Governing Environmental Flows explores what such a reformulation means for the environmental social sciences. Taking the term environmental flows--in both its traditional scientific sense and in a newer social dimension--as its key unit of analysis, the book focuses on the interrelationships of globalization, the environment, and the state. The consensus of the contributors is that the conventional nation-state-based approach to environmental policy is in need of revision; the goal of the book is to lay the foundations for a set of concepts capable of analyzing environmental governance in global modernity. The first part of the book takes a theoretical perspective on how to interpret and conceptualize problems of governance and material flows. Case studies follow, examining biodiversity...
