

Cyclic Coverings, Calabi-Yau Manifolds and Complex Multiplication

Filesize: 2.89 MB

Reviews

This publication will be worth purchasing. It really is written in simple terms instead of difficult to understand. It has been designed in an exceptionally simple way and is particularly only right after I finished reading this ebook in which basically modified me, alter the way I believe.
(Prof. Loyce Runolfsson Jr.)

CYCLIC COVERINGS, CALABI-YAU MANIFOLDS AND COMPLEX MULTIPLICATION

To save **Cyclic Coverings, Calabi-Yau Manifolds and Complex Multiplication** eBook, remember to refer to the button under and download the file or get access to other information which are in conjunction with CYCLIC COVERINGS, CALABI-YAU MANIFOLDS AND COMPLEX MULTIPLICATION book.

Springer. Paperback. Book Condition: New. Paperback. 228 pages. Dimensions: 9.2in. x 6.0in. x 0.6in. The main goal of this book is the construction of families of Calabi-Yau 3-manifolds with dense sets of complex multiplication fibers. The new families are determined by combining and generalizing two methods. Firstly, the method of E. Viehweg and K. Zuo, who have constructed a deformation of the Fermat quintic with a dense set of CM fibers by a tower of cyclic coverings. Using this method, new families of K3 surfaces with dense sets of CM fibers and involutions are obtained. Secondly, the construction method of the Borcea-Voisin mirror family, which in the case of the authors examples yields families of Calabi-Yau 3-manifolds with dense sets of CM fibers, is also utilized. Moreover fibers with complex multiplication of these new families are also determined. This book was written for young mathematicians, physicists and also for experts who are interested in complex multiplication and varieties with complex multiplication. The reader is introduced to generic Mumford-Tate groups and Shimura data, which are among the main tools used here. The generic Mumford-Tate groups of families of cyclic covers of the projective line are computed for a broad range of examples. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
