I ve had my share of experiences where the swarm departed for some unknown destination, and then I ve wondered about the swarms that come out of bee trees in remote areas where no human being was able to discover them and call me. And what about the swarms that people find but they don t know who to call? Eventually those swarms will leave for a hollow tree or somebody s garden shed. How can I get those swarms I don t even know about? The scout bees are out looking for a new location which they can call home. The scout bees are searching diligently as you ask some simple questions over the phone about how high the swarm is and how long they ve been there. You get organized and start to drive to the swarm site. As you drive to the swarm location, the scout bees...
